The Circulation of The Bulletin.

The Bulletin has the largest circulation of any paper in Eastern Connecticut, and from three to four times larger than that of any in Norwich. It is delivered to over 3.000 of the 4,053 houses in Norwich, and read by ninety-three per cent of the people. In Windham it is delivered to over 900 houses, in Putnam and Danielson to over 1,100, and in all of these places ! is considered the local daily.

Eastern Connecticut has forty nine towns, one hundred and sixtylive post office districts and fortyone rural free delivery routes. The Bulletin is sold in ever

ONE WAY OF JUSTICE.

The first Bains trial was a disappointment to all law-respecting citiof violence over order in the settle-ment of personal grievances.

The loquacity of Hains after his acquittal, and his commendation of the jury for placing the unwritten law above the written law-for endorsing violence and savagery where deceney and order would have been better, proved to be very nettling to the jury, the foreman of which ventured to explain how the decision was reached and the effect of the whole matter will be to make the jury in the case of Capt. Peter Hains more careful in house their conclusions

Mains, but no one indicts her for her infidelity, for her criminal conduct. which was the cause of Annis' demoralization and assassination.

The Bullotin doesn't like the acquittal of Thornton J. Hains, but it must concede that it does not know why he deserves imprisonment any more than Mrs. Peter Hains, whose love letters, larks, and athletic sprightliness were the damnation of William El Annis as well as of Captain Hains.

Justice ought to reach causes; and this superficial way of dealing with capital offenses is far from being right or commendatory. It is a misconception of both justice and chivalry to let such a woman go "scot free."
